

DISPLAYS

Technology and Applications

Index Volume 12: 1991

Author

- Aliev, D F, Aristov, V L, Mitrokhin, V V and Sevostyanov, V P Operating characterization of a smectic A LCD 86
- Chadha, S S Prospects of electroluminescent displays for high-definition television 41
- Drzaic, P S Nematic droplet/polymer films for high-contrast coloured reflective displays 2
- Freeman, K G and Rogers, P T Simulation of liquid crystal colour TV displays 16
- Gallimore, J J, Farley, W W and Snyder, H L Effects of spatial luminance nonuniformities on visual-task performance and subjective uniformity 147
- Gerhard-Multhaupt, R Light-valve technologies for high-definition television projection displays 115
- Hatanaka, Y and Ya, C C Planar electron source and matrixed focus electrode for panel displays 91
- Ineson, J Imagery for a virtual cockpit 129
- Infante, C Numerical methods for computing modulation transfer-function area 80
- Jubis, R M T Effects of colour coding with different symbol sets on retrieval time for a keeping-track task 167
- Kanazawa, M and Mitsuhashi, T A 50-inch diagonal rear-projection display for HDTV with automatic convergence correction 21
- Mimura, A, Kimura, E, Suzuki, T, Ono, K, Ohwada, J-I, Konishi, N and Miyata, K Fabrication of a poly-Si thin-film transistor with storage capacitor 141
- Mueller, G O Flat-panel displays for high-definition television 31
- Ohgawara, M, Tsubota, H, Kuwata, T, Akatsuka, M, Koh, H, Sawada, K and Matsuhira, K Development of a multicolour super-twisted-nematic display 65
- Salavin, S, Specty, M, Baret, G and Deschamps, J Sunlight-legible AC-plasma display devices 97
- Tagg, F Selecting displays 100
- Tokita, K, Inoue, M, Sone, T and Urata, H Geometric compensation for mask expansion of colour cathode-ray tubes 74
- Yano, S Experimental stereoscopic high-definition television 58
- Yokoi, H and Kuma, H Optimum apportionment of character presen-

- tation time by time-continuous model of short-term memory 156
- Yong-Kui, L Two-level rendition of continuous-tone pictures 84

Title

- A 50-inch diagonal rear-projection display for HDTV with automatic convergence correction Kanazawa, M and Mitsuhashi, T 21
- Development of a multicolour super-twisted-nematic display Ohgawara, M, Tsubota, H, Kuwata, T, Akatsuka, M, Koh, H, Sawada, K and Matsuhira, K 65
- Effects of colour coding with different symbol sets on retrieval time for a keeping-track task Jubis, R M T 167
- Effects of spatial luminance nonuniformities on visual-task performance and subjective uniformity Gallimore, J J, Farley, W W and Snyder, H L 147
- Experimental stereoscopic high-definition television Yano, S 58
- Fabrication of a poly-Si thin-film transistor with storage capacitor Mimura, A, Kimura, E, Suzuki, T, Ono, K, Ohwada, J-I, Konishi, N and Miyata, K 141
- Ferroelectric liquid-crystal display product development 175
- Flat-panel displays for high-definition television Mueller, G O 31
- Geometric compensation for mask expansion of colour cathode-ray tubes Tokita, K, Inoue, M, Sone, T and Urata, H 74
- Imagery for a virtual cockpit Ineson, J 129
- Light-valve technologies for high-definition television projection displays Gerhard-Multhaupt, R 115
- Nematic droplet/polymer films for high-contrast coloured reflective displays Drzaic, P S 2
- Numerical methods for computing modulation transfer-function area Infante, C 80
- Operating characterization of a smectic A LCD Aliev, D F, Aristov, V L, Mitrokhin, V V and Sevostyanov, V P 86
- Optimum apportionment of character presentation time by time-continuous model of short-term memory Yokoi, H and Kuma, H 156
- Planar electron source and matrixed

- focus electrode for panel displays Hatanaka, Y and Ya, C C 91
- Prospects of electroluminescent displays for high-definition television Chadha, S S 41
- Selecting displays Tagg, F 100
- Simulation of liquid crystal colour TV displays Freeman, K G and Rogers, P T 16
- Sunlight-legible AC-plasma display devices Salavin, S, Specty, M, Baret, G and Deschamps, J 97
- Two-level rendition of continuous-tone pictures Yong-Kui, L 84

Subject

Book reviews

- Electronic Display Devices Matsu-moto, S 55
- How to Select a CRT Monitor 199
- How to Select a Flat Panel Display Silverstein, M F 198
- Liquid Crystal Applications and Uses — Volume 1 Bahadur, B (Ed.) 199
- Optical Effects in Liquid Crystals Janossy, I 198
- Scientific Visualization and Graphics Simulation Thalmann, D (Ed.) 55
- Using Computer Color Effectively: An Illustrated Reference Thorell, L G and Smith, W J 197

Calendar

- 56

Conferences

- Eurodisplay '90 52
- Quality of Video and Datagraphic Displays 178
- Recent Developments in Displays 50
- Seventh Annual Flat Information Display Conference 104
- SID Display Seminars and International Symposium 177

Events

- ED '91: Electronic Displays Conference and Exhibition 180

Literature

- 192

Market forecasts

- 195

Products

- 110, 185
